

Since our beginning, we have offered scholarships to local students to help ensure educational opportunities, awarding millions of dollars. Although our process has changed and the scholarships have grown, our commitment to a quality scholarship program and experience for donors, students and schools remains the same.

We appreciate people and organizations who want to help our students continue their education. However, we know the entire process can be burdensome. That's why we offer Scholarship Central – an opportunity to turn over the administrative work of scholarships to CKCF so you continue to focus on your organization's work, fundraising for scholarships and other community projects, while having confidence in a partner with expertise in scholarships.

Central Kentucky Community Foundation handles all scholarship administration responsibilities, including:
